ABOUT THE ASGPP

The American Society of Group Psychotherapy and Psychodrama was founded in April, 1942 by Dr. J. L. Moreno. In 1947, Dr. Moreno started the journal, Group Psychotherapy, which later became The Journal of Psychodrama, Sociometry and Group Psychotherapy, the first journal devoted to group psychotherapy in all its forms. ASGPP was the pioneer membership organization in group psychotherapy and continues to be a source of inspiration for ongoing developments in group psychotherapy, psychodrama and sociometry.

The purposes of the Society include fostering the national and international cooperation of those concerned with the theory and practice of psychodrama, sociometry, and group psychotherapy and promoting the spread and fruitful applications of the theories and methods of psychodrama, sociometry, and group psychotherapy in professional disciplines concerned with the well-being of individuals, groups, families and organizations.

The workshops will be offered by leaders from the US and countries around the globe, showcasing their work and the wide reach of psychodrama and sociometry in a variety of applications and settings both clinical and non-clinical. Workshops are for individuals who are interested in psychodrama and sociometry including social workers, professional counselors, psychologists, nurses, substance abuse counselors, creative arts therapists and other healthcare providers. Workshops are appropriate for beginning, intermediate and advanced level practitioners.

The learning objectives for the conference are for participants to:
1. Integrate psychodrama, sociometry and group psychotherapy into their clinical work.
2. Apply theories and methods of psychodrama, sociometry, and group psychotherapy in their professional discipline.

5 USING ACTION METHODS FOR INCLUSION IN ORGANIZATIONS

Kimberly (Rattley) Dailey, Cook Ross, INC

Participants in this session will learn psychodramatic creative training methods that have been tried and true to build inclusion in traditional business and organizational settings. These methods stimulate awareness about others beyond their physical identity characteristics (such as gender, race or age) in ways that safely reveal values and beliefs, and the unavoidable blind spots we have about each other.

Learning Objectives.
After attending this workshop, participants will be able to:
1. Identify five brain based reasons action methods safely encourage open dialogue;
2. Describe the Picture Projection Exercise to invite versus force transparency.

6 PLAYING WITH SOMATIC EXPERIENCING IN THE PSYCHODRAMA CONSERVE

Milton Hawkins, LCSW-C, TEP, SE, Greater Baltimore Counseling Center; Tucson Center for Action Methods in Psychodrama

This workshop introduces similarities between Psychodrama and Somatic Experiencing (SE). Playing in the dual awareness of SE and psychodrama, we explore the healing continuum from crisis intervention, through supportive counseling, to deep uncovering and resolution of developmental trauma. The workshop offers psychoeducation, experiential learning, vignettes and a full psychodrama with processing.

Learning Objectives.
After attending this workshop, participants will be able to:
1. Identify 3 ways SE and psychodrama support one another;
2. Explain the healing continuum ranging from crisis intervention through uncovering and resolution of developmental trauma.

7 MOTIVATIONAL INTERVIEWING MEETS PSYCHODRAMA

Jennifer Sambilene, LCSW-R, CASAC, CDAC, TEP, Private Practice; Regina Sewell, LMHC, Med, PhD, Russell Sage College, Dutchess Community College

Psychodrama, Sociodrama and Sociometry are great adjuncts to motivational interviewing. They are particularly useful in cutting through rationalization, denial, justification and various other defenses that people use to avoid change. When you do things in action your body takes over and your mind gets out of the way. This workshop will show you how to use psychodrama to engage clients, help them identify and access resources, and work towards sustainable change.

Learning Objectives.
After attending this workshop, participants will be able to:
1. Define define sociometry;
2. Describe how to incorporate two psychodramatic techniques into Motivational Interviewing.

8 SHAKING THE FAMILY TREE – WHO’S IN YOUR DNA?

Karen Carnabucci, LCSW, TEP, Private Practice, Lancaster, PA

As DNA tests become more available, people are learning about new relationships in their family systems. Adoptees are finding biological parents and siblings; others are discovering startling family secrets including illegitimate and abandoned children and long-lost relatives. These discoveries shake us and force us to reevaluate how we fit into our social atom. In this workshop, we use psychodrama, mindfulness and Family Constellations to explore how we can tend to and integrate these new realities.

Learning Objectives.
After attending this workshop, participants will be able to:
1. Identify problems and distress that may surface with DNA results;
2. Demonstrate how psychodrama and Family Constellations principles can address personal and family distress.

1:30 pm - 5:00 pm AFTERNOON PRE-CONFERENCE HALF-DAY SPECIAL INSTITUTE

Furthermore, this workshop will present a process for integrating psychodrama into other fields and warm-up participants to doing so.

Learning Objectives.
After attending this workshop, participants will be able to:
1. Identify one theoretical overlap between social work and Moreno’s methods;
2. Describe at least one way of integrating Moreno’s methods into another field.

                   The Power of Connection and Identification.
                   Floor Checks: Teaching and Healing Experientially
   Research in neurobiology has made clear that our emotions are experienced and processed by the body as well as the mind and that that healing from the kind of trauma that living with addiction engenders requires a mind/body approach. Psychodrama and sociometry allow the body to participate in the therapeutic milieu. In this experiential workshop we’ll look at how to use sociometry to explore issues related to trauma and addiction as well as to “warm up” a group, connect them with each other and their personal “stories”.
   Learning Objectives. After attending, participants will be able to:
   1. Expand a restricted range of affect that can be the result of trauma;
   2. Allow the group to become comfortable identifying, articulating and sharing emotion.

9:30 am - 10:00 am  COMMUNITY SOCIOMETRIC SELECTION with Julie Wells & the Sociometric Selection Team

11  WHAT AM I DOING FOR MY BIRTHDAY? THE HALTING QUESTION.
Azure Forte, MA, MEd, MFA, LMHC, TEP, Private Practice
Sociometric Action Method tools penetrate the intra-personal dilemma of this question. Whether asking from a personal or helping professional role, the anticipation of a birthday anniversary can create anxiety, confusion, indecision, conflict and worry, thus also compromising interpersonal balance. The workshop goal is to achieve answers, not just journey through the search: interactive exercises, sociometric diagrams, psychodramatic action and discussion.
   Learning Objectives. After attending this workshop, participants will be able to:
   1. Apply an intra-personal intervention from a professional role that will reduce or prevent stress;
   2. Recognize a new approach that will penetrate the dilemma of birthday anxiety.

9:45 am - 12:45 pm  MORNING WORKSHOPS

    MORENO AND RAV NAHMAN OF BRESLOV

Anath Garber, TEP, PDD, Institute of Applied Human Relations
"The world is a narrow bridge and the most important thing is: Fear Not". How to accomplish it? We will introduce the practical wisdom of the 18th century mystic who translated the intricate kabbalistic writings into healing techniques. We will compare them to Moreno's psychodramatic techniques – both action oriented. A group directed psychodrama will follow.
   Learning Objectives.
   After attending this workshop, participants will be able to:
   1. Describe Moreno’s empty chair and Rav Nachman’s empty chair;
   2. Demonstrate one healing technique.

**Learning Objectives.**

After attending this workshop, participants will be able to:

1. Identify at least 3 sociometric structures (e.g., including step-in-circle, spectrogram, and locogram) and one way they can be used with individuals with eating disorders;
2. Describe how action methods can increase the spontaneity of the group and help facilitate healing.

Scene Setting Our Lives: A Look at How Clients Create and Re-CREATE the Dramas of Their Lives

Paul Lesnik, CSCSW, TEP, ASGPP, CSCSW, ABE; Lin Considine, LMHC, TEP, ASGPP, CSCSW, ABE

Clients often re-create scenes from their past that bring “drama” into their present life. These scenes are often deep-rooted and often unconscious. The action methods of psychodrama offer many opportunities to set scenes to explore the stories that create our lives and move these stories toward an alternative ending. Workshop participants will explore these opportunities in action.

Learning Objectives.
After attending this workshop, participants will be able to:
1. Identify 2 or more ways that sense memory and other triggers are explored in psychodrama, complementary expressive arts and evidence-based modalities;
2. Describe 2 or more psychodrama techniques that can be used in individual or group settings to redefine troubling “scenes” for clients.

BIBLIODRAMA AS A WARM UP TO PSYCHODRAMA

Patrick Barone, JD, CP/PAT, Michigan Psychodrama Center; Elizabeth Corby, PhD, CP/PAT, Michigan Psychodrama Center

In this Bibliodrama workshop we may be utilizing a variety of psychodrama interventions, such as the empty chair, role-reversal, and doubling, which is called “echoing” in Bibliodrama. Also, the intrapsychic lives of the Bible characters might be explored, and various objects in the story, mentioned or not, may be personified. After our Bibliodrama “warm up” a protagonist will be sociometrically selected. This combination of the modalities of psychodrama and Bibliodrama will add a further dimension to our work.

Learning Objectives.
After attending this workshop, participants will be able to:
1. Identify the “White Fire” of scriptures utilized and learn how to use this to develop a Bibliodrama;
2. Demonstrate the relevance, interplay and transition from the ancient stories to one’s personal story will be demonstrated as the group moves from the Bibliodramatic material to an individual’s personal work.

PSYCHODRAMATIST AND CLINICAL THERAPIST: A DYNAMIC DUO FOR ACTION BASED FAMILY TREATMENT

Carol Feldman-Bass, JD, Social Dynamix; Jonathan N. Bass, MD, Social Dynamix & Life Member American Psychiatric Association, Fellow American Academy of Pediatrics

This workshop explores a model of action based family treatment involving Psychodrama, Sociometry, and Improvisation provided by simultaneous real time collaboration between a Psychodramatist and a Psychiatrist. We will look at the dynamics of the model, the role played by each clinician, and the interface between traditional Psychoanalytic Psychotherapy, Neurobiology, Psychopharmacology, and Psychodrama when treating families. Case material and demonstrations will be presented.

Learning Objectives.
After attending this workshop, participants will be able to:
1. Identify the benefits of real time collaboration with practitioners from multiple disciplines when doing family treatment;
2. Recognize that through action methods they can identify the presence of co-morbid pathology affecting individuals within a family subsequently resulting in systemic dysfunction.

In this workshop we will integrate psychodrama, drama and music therapy methods in the exploration and application of the Four Universalia.

Learning Objectives.
After attending this workshop, participants will be able to:
1. Identify the Four Universalia;
2. Describe one music or drama therapy method to support the protagonist experience of altered time, space, reality or the cosmos.

Learning Objectives.
After attending this workshop, participants will be able to:
1. Identify the two components of the MM model;

Marcy Pollitt, LCSWR, SEP, MSW, Joyfully Becoming, Private Practice; Pamela Perkins, MFA, LCSWR, Private Practice

This workshop will introduce participants to the powerful and natural attachment stance of the Alpha Role. It will demonstrate how this archetypal wise parent role can increase healthy attachment by reducing reactivity and increasing responsiveness and help our children, our clients, and our clients children to literally feel more safe and loved. Blocks to healthy attachment, including projections, trauma, and other habitual defenses, will be identified and addressed through the corrective experience offered by role reversal, doubling, and somatic exploration. This somatic work creates an embodiment of the wise parent/Alpha Role so that participants can more readily access and maintain this role.

Learning Objectives.
After attending this workshop, participants will be able to:
1. Describe what the Alpha Role looks like in the context of attachment focused parenting, how it works to effectively positively shift family roles as needed and how it helps parents feel more confident and trusting of their intuitive wisdom and helps children to literally feel more safe and loved;

Caring for loved ones who are facing the loss of normal functioning is a heartbreaking and confusing experience; it can also bring about opportunities for deep emotional healing. For many family caregivers, who are often thrust into the role and untrained for the tasks that lay ahead, it is difficult to attain the level of reflection needed to experience interpersonal healing. Through sociodramatic and psychodramatic action, we will explore the Lay Caregiver’s experience of taking, developing and creating healing. Through sociodramatic and psychodramatic action, we will explore personal stories and enroll workshop members to play healthy parent roles followed by sharing and processing of the work done.

**Learning Objectives.**

**Marcia Nickow, Psy.D, CADC, CGP, Private Practice, Chicago, IL; SunCloud Health Outpatient Treatment Center; AGPA; ISTSS (International Society for Traumatic Stress Studies)**

Building on attachment and family systems theories, this workshop targets healing from developmental and intergenerational trauma and addictive disorders (including substance use, gambling, sex and relationships, internet, work, compulsive spending, and eating disorders). Two 60-minute demonstration groups and sociometric exercises, exploring themes of betrayal, fear, terror, rage, loneliness, hopelessness and self-abandonment, along with power-and-control dynamics, will illuminate this treatment model. Dynamics of oppression rooted in historical and cultural trauma will be explored.

DANCEDRAMA WITH THE STARS: PSYCHODRAMA AND DANCE/MOVEMENT THERAPY

Daniela Simmons, PhD, TEP, Expressive Therapies Training Institute, University of North Texas, University of Johannesburg; Concetta Troskie, MA, LPC, BC-DMT, RDT, Mindfully Embodied, LLC
Dance has been used therapeutically for thousands of years. The founder of Psychodrama, J.L. Moreno identified the term ‘Psychodance’ (Sociatry, 1948, p.436) as a “synthesis of spontaneous dance with psychodrama”. In the 1970s Dance-Movement Therapy (DMT) evolved as ‘the correlation between movement and emotion’ (Psychology Today, 2019). This workshop will demonstrate applications from psychodrama and dance movement therapy as a cross-disciplinary work. The participants will be able to experience an original modality, created by the two presenters.

Learning Objectives.
After attending this workshop, participants will be able to:
1. Describe three (3) applications from psychodrama and dance movement therapy as a cross-disciplinary work;
2. Apply three (3) dance movement therapy techniques in psychodrama.

THEATRE OF ROLE HEALING: UNDERSTANDING PSYCHOLOGICAL ROLE CAPITAL

Adam Chi-Chu Chou, TEP, Feng Chia University, Taiwan Association of Psychodrama, ASGPP
People are wounded in roles. The healing and thrive in life also comes from the roles people play. This workshop expands Moreno’s role concepts while focusing on the function of psychological role capital. In role healing psychodrama, participants will have the opportunity to connect to their psychological roles derived from families of origin. Through identifying and naming these roles, members are led to rewrite and replay their stories with newly transformed roles in drama.

Learning Objectives.
After attending this workshop, participants will be able to:
1. Define in action the conceptualization of investment in psychological role capital;
2. Apply the methods and techniques of leading a role healing psychodrama.

The Social Justice and Spiritual Wisdom Tradition of Moreno
A Mentored Program of Study

Inherent within the method there exists a social justice and spiritual wisdom tradition. Created by both Zerka and JL Moreno, this is specific to “awakening the autonomous healing center” within each of us, within groups, and with all of life. The wisdom tradition includes a social justice understanding of the largest sociometric system taking place, impacting all of humanity and the entire biosphere. This tradition includes access to and integration of a power, an Intelligence that manifests within all of us, as the unformed essence of life Itself. This customized mentored program is offered to individuals and groups and as an invitation to you.

“Our instruments are basically spiritual and existential, pointing to and supporting the value of the human spirit. Awakening the autonomous healing center, the power to heal oneself, is how I see the value of psychodrama and all forms of therapy.” (Zerka T Moreno-To Dream Again)
