ABOUT THE ASGPP

The American Society of Group Psychotherapy and Psychodrama was founded in April, 1942 by Dr. J. L. Moreno. In 1947, Dr. Moreno started the journal, *Group Psychotherapy*, which later became *The Journal of Psychodrama, Sociometry and Group Psychotherapy*, the first journal devoted to group psychotherapy in all its forms. ASGPP was the pioneer membership organization in group psychotherapy and continues to be a source of inspiration for ongoing developments in group psychotherapy, psychodrama and sociometry.

The purposes of the Society include fostering the national and international cooperation of those concerned with the theory and practice of psychodrama, sociometry, and group psychotherapy and promoting the spread and fruitful applications of the theories and methods of psychodrama, sociometry, and group psychotherapy in professional disciplines concerned with the well-being of individuals, groups, families and organizations.

The workshops will be offered by leaders from the US and countries around the globe, showcasing their work and the wide reach of psychodrama and sociometry in a variety of applications and settings both clinical and non-clinical. Workshops are for individuals who are interested in psychodrama and sociometry including social workers, professional counselors, psychologists, nurses, substance abuse counselors, creative arts therapists and other healthcare providers. Workshops are appropriate for beginning, intermediate and advanced level practitioners.

The learning objectives for the conference are for participants to:
1. Integrate psychodrama, sociometry and group psychotherapy into their clinical work.
2. Apply theories and methods of psychodrama, sociometry, and group psychotherapy in their professional discipline.

Both methods recognize the reality and significance of the person’s social context (Minuchin & Fishman, 1981). The Wise Mind is central in Dialectical Behavior Therapy as well as a useful concept for those not trained in DBT. Our clients who lack positive nurturing role models often are challenged to engage their own inner Wise Mind. As DNA tests become more available, people are learning about new relationships in their family systems. Adoptees are finding biological parents and siblings; others are discovering startling family secrets including illegitimate and abandoned children and long-lost relatives. These discoveries shake us and force us to reevaluate how we fit into our social atom. In this workshop, we use psychodrama, mindfulness and Family Constellations to explore how we can tend to and integrate these new realities.

**Learning Objectives.**

After attending this workshop, participants will be able to:

1. Identify problems and distress that may surface with DNA results;

**Jennifer Sambilene, LCSW-R, CASAC, CDAC, TEP, Private Practice; Regina Sewell, LMHC, MEd, PhD, Russell Sage College, Dutchess Community College**

Psychodrama, Sociodrama and Sociometry are great adjuncts to motivational interviewing. They are particularly useful in cutting through rationalization, denial, justification and various other defenses that people use to avoid change. When you do things in action your body takes over and your mind gets out of the way. This workshop will show you how to use psychodrama to engage clients, help them identify and access resources, and work towards sustainable change.

**Learning Objectives.**

After attending this workshop, participants will be able to:

1. Define define sociometry;
2. Describe how to incorporate two psychodramatic techniques into Motivational Interviewing.

Paul Lesnik, CScSW, TEP, ASGPP, CScSW, ABE; Lin Considine, LMHC, TEP, ASGPP, CScSW, ABE

Clients often re-create scenes from their past that bring “drama” into their present life. These scenes are often deep-rooted and often unconscious. 26 CIRCUMVENTING THE DICHOTOMOUS TRIANGLE OF ADDICTION, RECOVERY AND RELAPSE

Craig Caines, LICSW, PIP, MAC, TEP, Founder of Birmingham Action Centered Therapy (BACT), Fellow of ASGPP

 Helpers serving people with addiction recovery needs inevitably find themselves in a dichotomy with the individual’s ambivalence revolving around change. This workshop explores a director directed psychodrama that approaches the individual’s fear, distrust and anger with people in the roles of helpers. A demonstration will be given showing how psychodrama elicits the individual’s intrinsic need for healthy connection, greater adequacy and the potency to move from the periphery to the core...the encounter with addiction.

**Learning Objectives.**
After attending this workshop, participants will be able to:
1. Recognize the clinical ineffectiveness of insight oriented top down approaches to the individual’s ambivalence with change;
2. Identify psychodramatic interventions for clinical stuck points revolving around a dichotomy between the helper and the individual.

Barbara Guest Hargin, BEd, MSW, TEP, Ontario College Social Workers, Ontario Society Psychotherapists, ABE; Yvette Perreault, MA, Retired director of The Aids Bereavement and Resiliency Program of Ontario, Association of Death Education and Counselling, Canadian Association of HIV/AIDS Research

For workers responding to traumatic losses, experiences of ‘overwhelmed, burned out and vicarious traumatization’ are common. This workshop will demonstrate how regular team support using psychodrama with a group of front line HIV/AIDS workers enabled a team to effectively debrief and unburden, deepen their sense of meaning and purpose in their work and support the creation of a resilient caring community that actualized self care and collective care.

**Learning Objectives.**
After attending this workshop, participants will be able to:
1. Identify the impact of working with trauma and multiple loss and will have ideas about specific tools that supported the sustainability of this particular strong, bonded, resilient team;

BIBLIODRAMA AS A WARM UP TO PSYCHODRAMA

Patrick Barone, JD, CP/PAT, Michigan Psychodrama Center; Elizabeth Corby, PhD, CP/PAT, Michigan Psychodrama Center

In this Bibliodrama workshop we may be utilizing a variety of psychodrama interventions, such as the empty chair, role-reversal, and doubling, which is called “echoing” in Bibliodrama. Also, the intrapsychic lives of the Bible characters might be explored, and various objects in the story, mentioned or not, may be personified. After our Bibliodrama “warm up” a protagonist will be sociometrically selected. This combination of the modalities of psychodrama and Bibliodrama will add a further dimension to our work.

Learning Objectives.

After attending this workshop, participants will be able to:
1. Identify the “White Fire” of scriptures utilized and learn how to use this to develop a Bibliodrama;
2. Demonstrate the relevance, interplay and transition from the ancient stories to one's personal story will be demonstrated as the group moves from the Bibliodramatic material to an individual’s personal work.

PSYCHODRAMATIST AND CLINICAL THERAPIST: A DYNAMIC DUO FOR ACTION BASED FAMILY TREATMENT

Case material and demonstrations will be presented.

Learning Objectives.

After attending this workshop, participants will be able to:
1. Identify the benefits of real time collaboration with practitioners from multiple disciplines when doing family treatment;
2. Recognize that through action methods they can identify the presence of co-morbid pathology affecting individuals within a family subsequently resulting in systemic dysfunction.

Through sociodramatic and psychodramatic action, we will explore the Lay Caregiver’s experience of taking, developing and creating healing. **Daniela Simmons, PhD, TEP, Expressive Therapies Training Institute, University of North Texas, University of Johannesburg; Concetta Troskie, MA, LPC, BC-DMT, RDT, Mindfully Embodied, LLC**
Dance has been used therapeutically for thousands of years. The founder of Psychodrama, J.L Moreno identified the term ‘Psychodance’ (Sociatry, 1948, p.436) as a “synthesis of spontaneous dance with psychodrama”. In the 1970s Dance-Movement Therapy (DMT) evolved as ‘the correlation between movement and emotion’ (Psychology Today, 2019). This workshop will demonstrate applications from psychodrama and dance movement therapy as a cross-disciplinary work. The participants will be able to experience an original modality, created by the two presenters.

People are wounded in roles. The healing and thrive in life also comes from the roles people play. This workshop expands Moreno’s role concepts while focusing on the function of psychological role capital. In role healing psychodrama, participants will have the opportunity to connect to their psychological roles derived from families of origin. Through identifying and naming these roles, members are led to rewrite and replay their stories with newly transformed roles in drama.

**Learning Objectives.**

1. Define in action the conceptualization of investment in psychological role capital;
2. Apply the methods and techniques of leading a role healing psychodrama.

The Social Justice and Spiritual Wisdom Tradition of Moreno
A Mentored Program of Study

Inherent within the method there exists a social justice and spiritual wisdom tradition. Created by both Zerka and JL Moreno, this is specific to “awakening the autonomous healing center” within each of us, within groups, and with all of life. The wisdom tradition includes a social justice understanding of the largest sociometric system taking place, impacting all of humanity and the entire biosphere. This tradition includes access to and integration of a power, an Intelligence that manifests within all of us, as the unformed essence of life. This customized mentored program is offered to individuals and groups and as an invitation to you.

“Our instruments are basically spiritual and existential, pointing to and supporting the value of the human spirit. Awakening the autonomous healing center, the power to heal oneself, is how I see the value of psychodrama and all forms of therapy.” (Zerka T Moreno-To Dream Again)
