ABOUT THE ASGPP
The American Society of Group Psychotherapy and Psychodrama was founded in April, 1942 by Dr. J. L. Moreno. In 1947, Dr. Moreno started the journal, Group Psychotherapy, which later became The Journal of Psychodrama, Sociometry and Group Psychotherapy, the first journal devoted to group psychotherapy in all its forms. ASGPP was the pioneer membership organization in group psychotherapy and continues to be a source of inspiration for ongoing developments in group psychotherapy, psychodrama and sociometry.

The purposes of the Society include fostering the national and international cooperation of those concerned with the theory and practice of psychodrama, sociometry, and group psychotherapy and promoting the spread and fruitful applications of the theories and methods of psychodrama, sociometry, and group psychotherapy in professional disciplines concerned with the well-being of individuals, groups, families and organizations.

*KATE COOK, LPCC, TEP* is a certified international trainer in Group Process and Action Methods living in Santa Fe, New Mexico where she practices as a therapist, educator and consultant. A core faculty member of Southwestern College graduate school since 1990, Kate founded and directs their certificate program: Interpersonal Neurobiology, Somatics and Action Methods. For many years Kate created and directed groups for juvenile and adult offenders in the Santa Fe County Detention Center. This presentation will highlight the astounding parallels between the philosophy and methods developed by J. L. Moreno in the early 1900’s and recent discoveries in neuroscience. Lending new hope for understanding the possibilities of human development, neuroscience can also revitalize our approach to psychodrama by reconfirming its efficacy as a leading and ‘truly therapeutic’ method.

Siegel, her clinical work helps trauma survivors and those with significant attachment wounds reshape their neural landscape to support a meaningful and resilient life. Dr. Badenoch teaches in the Interpersonal Neurobiology (IPNB) program at Portland State University and consults with clinicians using IPNB as a guide to evidence-based practice. She helped found GAINS (Global Association for Interpersonal Neurobiology Studies), a nonprofit organization that fosters the application of IPNB, and is editor-in-chief of its publication. EXHIBITING
MEMBER/NON-CORPORATE EXHIBITOR
One of the benefits of membership in the ASGPP is a complimentary space at our Members’ Table at the Annual Conference Exhibit Area to display copies of one piece of printed material. As space is limited, we ask that you observe the one promotional piece per member requirement.

Those of you that have products (other than books) which you think will appeal specifically to conference attendees may want to consider reaching this market in the Exhibit Area. Table space is also available for rent to those individuals who wish to promote their training programs, institutes, workshops, publications and other specialty products. The cost for a full exhibit table is $300; 1/2 exhibit table is $150.

Authors and publishers are not permitted to sell books, videos or DVD’s from an Exhibit Table but must work with our designated Conference Bookseller, Mental Health Resources, to sell them. To include your publication in the book display area, please contact MHR directly at 518-943-3559 or brian.mhr@verizon.net.

NOTE: Renters are responsible for the security of all items and products during the entire length of the conference.

CORPORATE EXHIBITOR
The ASGPP is pleased to offer 2 very attractive Exhibitor Registration Packages this year. Our objective is to create an environment which is “Exhibitor Friendly” and gives you maximum opportunity to network with attendees, conference leadership and potential customers. Please contact us for a brochure and specifics or see our website, www.asgpp.org.

If, however, you must use a credit card, go to www.ASGPP.org and click on the Conference 2011 button and follow directions to register and to pay for your registration, or include your information on the following registration page and ASGPP will process.

1 FEAR, PSYCHODRAMA AND THE BODY

Susan Aaron, BA, RMT; Creator and Trainer of Psychodrama & Bodyworks; Jean M. Campbell, LCSW, CET III, TEP; Trainer/Practitioner of Psychodramatic BodyWork, Action Institute of California

Fear is a very misunderstood emotion and many directors miss the subtle clues indicating fear’s presence. We will demonstrate a fear continuum showing the expression of fear from “barely expressed” to “fully expressed.” The continuum will include many unrecognized forms and manifestations of fear like laughter and dissociation, as well as various physical symptoms such as sleepiness, lower back pain and feeling chilled. Following the teaching, we will direct a psychodrama that safely incorporates our new knowledge about fear.

2 PSYCHODRAMA AND GROUP PSYCHOTHERAPY: BASIC AND COMPLEX

Mary Jo Amatruda, CGP, NBCC, TEP; Private Practice, Psychodrama Institute of New Haven, Trial Lawyers College

Group therapy is intrinsic to psychodrama’s beginnings, yet the third part of the psychodrama triad is often ignored. Using a model developed by the presenter, this workshop will look at the junctures in a psychodrama session when psychodrama is informed by the group therapy process and becomes grist for the group’s process. This workshop is useful for anyone who conducts group therapy and psychodrama groups and wants to take the concept of sociometry a step further.

3 PLAYBACK THEATRE: HONORING WOUNDS AND JOYS

Paula Patterson, RDT/BCT, LMHC, CP; Shands Arts and Medicine, ASGPP Fellow

This workshop presents the significance of playback theatre for bridging the gap between psychodrama and theater. It is a way in which the ‘teller’ can observe personal hope depicted as a reality by empathetic actors. Playback creates a healthy sociometry as one story picks up on the theme presented in the last story. Participants will learn three playback short forms, be introduced to playback enacted as a full story, and have the opportunity to try conducting and being the musician.

4 ADDICTIONS: A LOVE AFFAIR

Judy Swallow, LCAT, CRS, TEP; Playback Theatre (IPTN), Rubenfeld Synergy Method (INARS)

People often have an intense and intimate relationship with substances or behaviors that start out pleasurably and then become possessive and demanding. Exploring this love/hate relationship in action engages people dealing with addiction who are defended against anti-drug dictates. This workshop will illustrate the use of sociometric and sociodramatic structures, and psychodramatic interventions to help shine the light of relationship on the subject of addiction.

5 DIALECTICAL BEHAVIORAL THERAPY IN ACTION

Susan Woodmansee, MS, OTR, TEP; Eating Recovery Center of Denver; Rebecca Walters, LCAT, LMHC, TEP; Hudson Valley Psychodrama Institute, Four Winds Hospital

This workshop offers participants experience in integrating the use of psychodramatic and experiential techniques to enhance and increase learning of the DBT skills of mindfulness, emotion regulation, stress tolerance and interpersonal effectiveness.

6 TRAIN THE TRAINER: PRESENTING PSYCHODRAMA TO NON-PSYCHODRAMATISTS

Bill Wysong, LPC, EMDR II, TEP; Aspen Counseling Center, Private Practice

Few know what psychodrama is about and we must “spread the word.” An ideal way to educate Mental Health Professionals, Clergy, Attorneys Educators and other interested groups is to demonstrate psychodrama with open sessions. Participants will learn how to format an open session including a warm-up, selection of a protagonist, a psychodramatic enactment, and sharing. Next we will discuss how to make contacts and why the particular format is used.

8 BOUNDARIES: ROAD SIGNS AND BRIDGES

Nancy Kirsner, PhD, TEP; Private Practice, Director of South Florida Center for Psychodrama Action Training and Group Works

Boundaries are how we define, protect, and contain ourselves - where we stop and the world of others begins. Most relationship problems are tied to boundary issues and violations. And yet, so many of us struggle with setting and maintaining our boundaries. It is often hard to respect our own boundaries and understand others’ limitations. Psychodramatists are uniquely equipped to be BOUNDARY TRAINERS with skills of concretization, role training and rehearsal.

SHIFTING FROM DESPAIR TO HOPE: A BODY PERSPECTIVE

Susan Aaron, BA, RMT; Creator and Trainer of Psychodrama & Bodyworks; Martie Adams, LISW, CSW, PAT

Unaddressed fear, despair and hopelessness become emotional and physical barriers held within the body which block the realization of our ideals. By addressing the unexpressed emotions and locating the somatic holding patterns, we can shift from an inability to manifest our goals towards empowerment and actualization. Using psychodramatic methods, we will join with our bodies in an exploration of moving beyond our blocks and fears towards creating the reality of our dreams.

Steve Kopp, MS, TEP; St. Luke’s Institute

Are you new to psychodrama? Are you asking, “Who are these people and what are they doing?” This workshop will serve as a bridge to our community by reviewing basic psychodrama tools, techniques and terminology. Blending didactic and action learning, together we will create a foundation to help you warm up to the psychodrama community and to your further experiences this weekend. Handout materials will be provided.

BRIDGING DIFFERENCES BETWEEN US AND THEM: CREATING SOCIOMETRIC CONNECTIONS

Eva Leveton, MS, MFT; California Institute of Integral Studies, Drama Therapy and Somatics Programs

In this workshop we will use recently developed techniques to explore groups different from ourselves and ways of using - and not using- our own histories to address vital sociometric issues. Playing with space to demonstrate the use of the whole group as one role, we will learn echo-doubling and other new, innovative ways of using role reversal.

EXPLORING RELATIONSHIP ISSUES FOR ACOAS

Nan Nally-Seif, LCSW, DCSP, TEP; Co-Director of the Psychodrama Institute, a division of the Sociometric Institute, NYC; Private Practice

Growing up in a family with addictions has a great impact on a person’s ability to trust and develop healthy adult relationships. This primarily experiential workshop will use Psychodrama and Sociometry to explore the challenges of connection and disconnection in relationships for Adult Children of Alcoholics. Come join us in the journey toward healthy, satisfying relationships.

SAFE PLACE: A REQUIRED TECHNIQUE

Pam Remer, PhD, TEP; University of Kentucky; Rory Remer, PhD, ABPP, TEP; University of Kentucky

Safe Place is an essential technique and teaching tool. This pleasurable, positive, universally applicable and virtually risk-free technique should be in the armentarium of every psychodramatist and anyone doing trauma work. The Safe Place scene setting and anchoring will be taught through demonstration and experiential practice.

WIZARDING WORLD OF HARRY POTTER

Andrea Sheldon, LMHC, CP; Nancy Kirsner, PhD, TEP; Private Practice; Director, South Florida Center for Psychodrama Action Training and Group Works

This workshop blends the magical worlds of Harry Potter and Psychodrama. From the concrete to the metaphorical, selected props from the Potter anthology (a wand, cape, mirror) will demonstrate a system of transport between Moreno’s First and Second Universe. Keeping one foot in the First Universe - where surplus reality reigns supreme - we will navigate the limitations of everyday reality as we keep our magic alive!

BEHIND THE MASK: EXPLORING SELF AND IDENTITY

Heidi Landis, RDT, LCAT, PAT; Creative Alternatives of New York; Private Practice

 Masks are a safe way to explore aspects of self, encouraging play and an understanding of who we are behind the masks we wear. As we mature, our masks become more sophisticated and entrenched. In this experiential workshop we will use mask work as a means of exploring roles and investigating identity. Psychodrama and Drama Therapy techniques will be utilized.

8:00 pm

Drum Circle on the Beach

You may wonder, “Can I really play a drum? Will it sound good? Will I have FUN?” In the words of Moreno: the answer is YES! YES! YES! Guided by Drum Circle facilitator Jana Broder, we’ll experience a magical evening of drumming and dancing. Drums are provided and no drumming experience is required.

OPEN EVENT
9:00 am - 12:00 pm  MORNING WORKSHOPS

**70  STORIES OF OUR ANCESTORS**

*Karen Carnabucci, MSS, LCSW, TEP; Lake House Health and Learning Center, Racine, WI*

All cultures attach ritual significance when loved ones pass. For example, some cultures worship their ancestors to ensure continued well-being or ask for special favors or assistance. Beginning with the family tree, we will expand ways to address issues relating to ancestors, known and unknown, loved and unloved. Through didactic and experiential presentation, Psychodrama and Systemic Constellation Work combine to create deep, profound healing and connections to our ancestors.

**71  MINDFULNESS & THE EXPRESSIVE THERAPIES**

*Patricia Isis, PhD, LMHC, ATR-BC; Miami-Dade County Public Schools; Private Practice*

This workshop will offer participants multiple opportunities through art, movement, writing, and sociodramatic exercises to experience increased moment to moment awareness of both themselves and their clients. In order to inspire further insight and engagement into personal and professional growth, we will witness and attend to personal imagery, gestures, words, and present perceptions of self and clients with acceptance and patience.

**72  BRIDGING! DEEPENING GROUP MEMBERS’ INTERACTION**

*Gregory MacColl, LCSW, CGP, FAGPA; Private Practic; Manhattan and Forest Hills, NY*

Bridging is the intensive way to build interpersonal communication within a group. The bridging process deepens the dialogue first between two members and then branches out to include others. The Leader will run a demonstration group, fishbowl style, highlighting ways this method can be used and conclude with an open dialogue of questions and ideas.

**73  SELF-DISCLOSURE IN PSYCHODRAMA**

*Catherine D. Nugent, MS, LCPC, TEP; Private Practice*

In psychodrama, protagonists, group members, and directors are encouraged to reveal themselves in different ways and to a greater extent than in many other forms of psychotherapy. What are the conceptual, ethical, and practical considerations related to self-disclosure in psychodrama? We will explore these issues through presentation, group discussion, and action.

**74  THESE BOOTS WERE MADE FOR WALKIN’**

*John Olesen, MA, PAT; BAM (Bay Area Moreno Institute)*

How will I measure up? The fear of being scrutinized, judged or embarrassed in front of our peers is something even confident people may feel. Through experiential learning and sociodrama we will explore both the neurobiological and cultural influences of shyness in order to better put our ideals into action.

**75  THE SOCIAL ATOM: A DIAGNOSTIC TOOL**

*Mary Anna Palmer, LICSW, LMFT, PAT; Ex. Director Psychodrama & Psychodrama Center, Eagan, MN*

As a diagnostic tool, the Social Atom very quickly reveals the nature of an individual’s social network and is a critical tool in helping a client see and experience who is in their psychological and emotional space. Participants will learn how to define their own social atom through a written experience, followed by an action sociogram of a participant’s social atom.

**76  CHRISTIAN SPIRITUAL FORMATION USING ACTION METHODS**

*Suzanne Palmer, MA, LPC, LAC; ACA; R. Steve Lowe, CCC, CHC, CGC; Pacific Youth Correctional Ministries*

Spiritual Formation and Soul Care have become expanded forms of Christian Discipleship in recent years. Action methods can make the teachings of Jesus Christ, the apostles, early church forefathers and current authors come alive. We will experientially explore one’s condition in Christ and the basic elements of justification, sanctification, and glorification, while emphasizing how to use this approach with at-risk youth.
**SUPERTURBO SOCIODRAMATIC LIVING NEWSPAPER**

*Herb Propper, PhD, TEP; Celebrations of Soul, Montpelier, VT; Bangladesh Society for Sociometric Training & Action*

In this workshop participants will be inspired to use the Living Newspaper as a warmup to interactive sociodrama with an audience or group. Focusing on the themes of healing societies and consciousness-raising through exploring issues & people in the daily news, you will learn particular methods of combining Living Newspaper with Sociodrama.

**CLEARING THE ETHICAL WATERS: THERAPEUTIC APPLICATIONS OF CONSCIOUS TOUCH**

*Rebecca Ridge, PhD, LMT, TEP; Private Practice, Sydney, Australia; Anoka, MN, Member, Australian Psychological Society*

Psychodramatists often incorporate therapeutic touch in warm-ups and as an intervention. Therefore it is critical for Psychodramatists to have clear, ethical boundaries and communication about touch, and to consider guiding principles for when transference occurs. Through simple body-oriented exercises you will learn specific kinds of touch applicable to a variety of therapeutic scenarios that deepen the safety of group dynamics. An integration of conscious, compassionate touch will be demonstrated in a psychodrama.

*This is a 2011 Award Winners Workshop*

**PSYCHODRAMA OF MARITAL ROLES**

*Robert Siroka, PhD, MFT, TEP; Founder Sociometric Institute, NYC, NY; Psychodrama Training Institute, NYC, NY*

Role theory, Sociometry and Psychodramatic Action Methods can be useful in understanding marital interaction. Drawing upon 50 years of clinical experience this workshop will explore the major roles and role clusters involved in couples interaction. We will utilize group participation to enhance the conceptual material. No previous experience in Psychodrama or Sociometry required. An open mind, awakened heart and a respectful consciousness will be helpful here as in all other life adventures.

**JOY OF LIVING**

*Mike Traynor, LCSW, CGP, TEP; Private Practice, Albany, NY; Choices Counseling Center, Winter Park, Fl.*

Addictions counseling often begins at a moment of crisis with clients exhibiting despair and alienation. We will use psychodramatic methods to focus on fostering client strengths and sustaining the courage and hope necessary to overcome internal and external opposition.

MIME ART: UTILIZING CREATIVITY TO HEAL TRAUMA

Eva Szego, MA, LPC, ATR-BC; Art Therapist; Consultant; Julithe Garrett; Young Audiences of Houston; The River Center

Movement and facial expressions tell the story of our sacred wounds. The fractured line between the subconscious and conscious can be healed by creating energy through drawings and movement. We will explore movement that allows one to free the body and create line drawings to help understand hurt/trauma.

NAME IT CLAIM IT

Jill Wachholz, MS, CPC; Private Consultancy-GroupSitr; Adjunct Faculty, Northwestern University

If we aren’t as satisfied in a role as we’d like to be, it’s an invitation to reignite strengths and truths we may have forgotten. During this innovative experiential workshop, we’ll create Name It and Claim It badges, then use these tools to build self and interpersonal awareness. Participants will acknowledge what badge they currently wear to work, identify other options, and then try on these alternatives for greater effectiveness and integration.

SOCIATRY: MYSTICISM, SCIENCE AND PRACTICE

Ed Schreiber, MEd, LADC, TEP; Zerka T Moreno Foundation

Moreno embedded coded-formulas into his method of Sociatry for the healing of self and humanity. The goal of this workshop is to examine these coded-formulas and to present Moreno’s instructions for reaching “enlightened states” of being.

This is a 2011 Award Winners Workshop

A creative alternative to the rituals of drug via multisensory stimulation will be utilized. Exploration will include lecture, demonstration and group discussion.

AUTHENTICITY AND THE THERAPEUTIC ALLIANCE

Nanine Ewing , PhD, CGP; Private Practice; Micki Grimland, LCSW, ACSW; Southwest Psychotherapy Associates

The therapist’s authenticity and comfort with transference and counter-transference makes or breaks the optimum therapeutic alliance. This workshop will employ some personal introspection and sharing of self.

95 EXPLORING THE MEANING OF HOPE THROUGH ACTION METHODS

Chris Farmer, MD, FRCP, FRC Psych; Consultant Psychiatrist / Psychotherapist (retired) Channel Islands, UK; Marcia Geller, PhD, RGT; Private Practice, Stamford, CT

Through Psychodrama, we are invited to share the collective and individual implications that concepts such as ‘hope’ have for us. We shall seek to understand their meaning from the context of Bowen’s Family Systems Theory, Nuclear Family Emotional Process, and Differentiation of Self. Sharing through Action Methods will provide insight about how our emotional relationships with family members affect our inner selves.

96 CINEMATHERAPY: CREATE THE NEXT SCENE IN YOUR LIFE

Estelle Fineberg, LMFT, ACSW, PAT; Private Practice, Ft. Lauderdale, FL; Elif Tasci, MS

Have you ever left a movie reflecting on your own life experiences, full of emotions and insights? Movies have the capacity to stir our soul about unresolved aspects of relationships in our lives. According to Pritzker, ‘cinematherapy’ is a method of healing using films as means of learning and modeling. Bring a significant scene from a favorite movie to put into action and to create the next scene for moving forward in your life.

97 THE SOCIOMETRY OF OZ

Azure Forte, LMHC, LMFT, CP-PAT; Private Practice; South Deerfield, MA

Reconnect with fairy dust, Neverland, flying, mermaids and pirates. Then bridge the gap between fantasy and reality while learning to help clients connect their creativity to their daily life.

Kate Hudgins, PhD, TEP; Therapeutic Spiral International, LLC; Francesca Toscani, Med, TEP; Therapeutic Spiral International; Mimi Cox, LCSW, TEP; Private Practice, Richmond, VA; Catherine Wilson, BSN, Med, CP; Virginia Commonwealth University Hospital System; Therapeutic Spiral International

Evolving over 20 years, the Therapeutic Spiral Model recently defined a final role of transcendence: the Ultimate Authority. Integrating this role enables one to live a spontaneous life beyond trauma. Through action in a TSM Transformational drama, you will learn to change trauma’s despair into the power and capacity to share healing with the world. This role advances Moreno’s dictum that a truly therapeutic procedure cannot have less an objective than the whole of humankind.

100 PSYCHODRAMA IN COURT LITIGATIONS

Grover L Porter, JD; Trial Lawyers College, Wyoming’ National Criminal Defense College, Macon GA; Donell Miller, PhD, Mdiv, TEP; Pres. CAMFT; Action Methods for Spiritual Growth, Redlands, CA

101 GROUP BUILDING THROUGH SOCIOMETRIC AWARENESS

Aggie Raeven, ACSW, LCSW, CP, PAT; The Door Sparta, NJ; Jacomien Ilbrink; The Door, Sparta, NJ

Building Sociometric Awareness gives hope to bring change and integration in the world. Through action and sharing, this workshop will focus on the use of sociometric techniques reflective of Moreno’s developmental theory. Skillful use of sociometric information allows the director to develop and assess levels of group development, carry a group through a storming phase, integrate changes and bring a group to deeper levels of awareness, connection and intimacy.

Colleen Baratka, MA, TEP; CATHARSIS Psychodrama Institute; The Renfrew Center of Philadelphia, PA
Many theories exist about why eating disorders develop. Experts agree that struggles with identity, a need for control, fear of growing up and fear of feelings are common to Anorexics, Bulimics and Binge Eaters. We will actively explore the development of eating disorders using Moreno’s Spontaneity Theory of Child Development. Participants will practice classical and TSM (Therapeutic Spiral Model) skills to utilize with clients for the reduction of symptoms and improvement of body image.
