American Society of Group Psychotherapy & Psychodrama

2022 Online Group Psychotherapy & Psychodrama Conference

March 30 - April 3, 2022

CEs – ASGPP: National Registry of Certified Group Psychotherapists, Counselors (NBCC); Ce-Classes.com: CEs for Psychologists (APA); Social Workers (ASWB); Addiction Professionals (NAADAC); California and Texas Board Approvals; The Florida Board of Clinical Social Work, Marriage and Family Therapy and Mental Health Counseling

The entire conference (Wednesday - Sunday) offers up to 32 hours toward CEs.
The American Society of Group Psychotherapy and Psychodrama was founded in April, 1942 by Dr. J. L. Moreno. In 1947, Dr. Moreno started the journal, *Group Psychotherapy*, which later became *The Journal of Psychodrama, Sociometry and Group Psychotherapy*, the first journal devoted to group psychotherapy in all its forms. ASGPP was the pioneer membership organization in group psychotherapy and continues to be a source of inspiration for ongoing developments in group psychotherapy, psychodrama and sociometry.

The purposes of the Society include fostering the national and international cooperation of those concerned with the theory and practice of psychodrama, sociometry, and group psychotherapy and promoting the spread and fruitful applications of the theories and methods of psychodrama, sociometry, and group psychotherapy in professional disciplines concerned with the well-being of individuals, groups, families and organizations.

The workshops will be offered by leaders from the US and countries around the globe, showcasing their work and the wide reach of psychodrama and sociometry in a variety of applications and settings both clinical and non-clinical. Workshops are for individuals who are interested in psychodrama and sociometry including social workers, professional counselors, psychologists, nurses, substance abuse counselors, creative arts therapists and other healthcare providers. Workshops are appropriate for beginning, intermediate and advanced level practitioners.

The learning objectives for the conference are for participants to:
1. Integrate psychodrama, sociometry and group psychotherapy into their clinical work.
2. Apply theories and methods of psychodrama, sociometry, and group psychotherapy in their professional discipline.

ASGPP DISCLAIMER

• The modules are unique to those who attend and will not be recorded.

• All participants should refrain from taking pictures of the group and sharing it with others or on social media, without the consent of the whole group.

• Participants need to attend while using a quiet and safe place with no other people present in their near-by physical space.

• All cameras (video) need to be ‘on’ during the session (except when an internet problem occurs).

• All participants receive a unique link to connect. Please do not share your link with anyone else.

• After the beginning of the session technical support may be difficult to provide.

• As the training is online, we want to be sure that we offer options if a problem with an internet connection occurs. If the technical issue occurs to the presenters, the training module will be rescheduled.

• All participants are expected to arrive 10 min early for the session to start exactly on time. If a participant arrives late and the warmup and sociometric exercises have advanced, the participant may not be appropriate to join. Please plan to stay throughout the entire session, including the closure.

• Gallery view allows you to see all or most participants at once. To switch from active speaker view, tap Switch to Gallery View in the upper-right corner of the Zoom window. If you do not see the controls, tap your screen to get them to appear.

• Knowing the risks
Sometimes there can be discomfort involved in participating in group training. You may remember unpleasant events or feelings. PSYCHODRAMA TRAINING CREDITS

The American Board of Examiners in Psychodrama, Sociometry and Group Psychotherapy (ABE) certification standards specify a maximum of 100 training credits obtained through for ASGPP conferences. These 100 hours must be obtained through face-to-face, in-person conference attendance. The certification standards also allow up to 120 hours of distance learning led by PATs and/or TEPs to be applied toward the required training hours, provided those distance learning hours are reviewed and approved by the applicant's primary trainer. As an accommodation during the COVID-19 pandemic, the number of allowable distance learning hours is increased to 150. Distance learning hours must be documented under the name(s) of the TEPs or PATs leading these training sessions and not under the organizations sponsoring those distance learning sessions.

2. **Blame, Shame and Forgiveness**

   Judy Swallow, LCAT, CRS, TEP, Hudson Valley Psychodrama Institute

   Whatever the presenting situation is in psychodrama, these three issues of blame, shame and forgiveness are often at the core. Shame and blame often fuel addictive behaviors and fearful or defiant denial. They can become spiraling dances that get nowhere. Forgiveness, when required, can add insult to injury; it can only be heartfelt to be healing. This workshop will explore some ways to help our clients engage with these concerns in action by using their willingness to accept the support of the group and of their higher power.

   **Learning Objectives.**
   - Identify differentiate between guilt and shame;
   - Identify how true forgiveness feels in the body/mind/spirit.

3. **Then and Now: Healing Eating Disorders with Psychodrama and Action Methods**

   Linda Ciotola, MEd, TEP, Healing Bridges; Karen Carnabucci, LCSW, TEP, Lancaster School of Psychodrama and Experiential Psychotherapies

   The “comfort eating” during the collective trauma of the pandemic has brought attention to how we use food to regulate our mood at times of stress. Whether we have overindulged or restricted our food, become quietly sedentary or compulsively active, we take a fresh look at struggles with disordered eating and body image and show how psychodrama, sociometry and other action structures give tools to support stability, healing and renewal in mind, body and spirit.

   **Learning Objectives.**
   - Identify how to assess individuals and groups with action sociometry on a variety of themes and topics;
   - Describe the use of the timeline to understand the progression of disordered eating, disordered activity and body image distortion.

4. **Using Action Methods for Inclusion in Organizations**

   Kimberly Rattly Daley, CP

   Participants in this session will learn psychodramatic creative training methods that have been tried and true to build inclusion in traditional business and organizational settings. These methods stimulate awareness about others beyond their physical identity characteristics (such as gender, race or age) in ways that safely reveal values and beliefs, and the unavoidable blind spots we have about each other.

   **Learning Objectives.**
   - Describe five brain based reasons action methods safely encourage open dialogue;
   - Apply the Picture Projection Exercise to invite versus force transparency.

5. **Disrupting Intransigent Patterns: Addiction, Oppression and Other Impossibilities**

   Leticia Nieto, PsyD, LMFT, TEP, Cuetzpalin Consulting/Beyond Inclusion Beyond Empowerment; Garth R. Johnson, MA, Cuetzpalin Consulting/Beyond Inclusion Beyond Empowerment

   “The most significant lesson gained in this lifetime is that the impossible happens.” -Zerka Moreno in *To Dream Again*. What do addiction, oppression, pollution, and group quagmire have in common? Some intransigent problems may hold important insights when we bridge Moreno’s first and second universes. How might the tools of sociometry, sociodynamics, psychodrama and sociodrama become the medicine for this era’s transformative journey. Join a time of: – Exploring in action – Attuning to the autonomous healing center – Uncovering pathways for reclamation obscured in addiction – Making developmentally attuned invitation to spontaneity – Humanizing the robot-pathology of systemic oppression.

   **Learning Objectives.**
   - Examine ethical and culturally relevant strategies for social justice;
   - Describe two seemingly opposed approaches to addictions: the neurochemical and the mythopoetic.

CREATING SAFE HARBOR

Rebecca Walters, LMHC, LCAT, TEP, Hudson Valley Psychodrama Institute

Creating a sense of safety is the first step in helping clients address deep wounds and trauma in virtually any clinical setting, individual or group. Before we ask them to reveal themselves and their lives we need to help the achieve a sense of being safe: with us, with one another (in a group) and with themselves. Techniques from psychodrama can enhance our work as clinicians as we guide clients to effective healing. Sociometric exercises, scene setting, concretizing personal strengths, the use of guided imagination and role reversal can all be used with clients in person or online to help develop the safety required to take risks to address their pasts, explore their present and move into their desired future. This workshop offers all counselors and therapists skills to integrate experiential methods into their own work. This is NOT a personal growth workshop. However, we will be practicing psychodramatic techniques. Please be aware that because this workshop includes experiential work, it has the capacity to elicit strong/sensitive personal/emotional issues.

Learning Objectives.
After attending this workshop, participants will be able to:
1. Demonstrate two sociometric structures creating safety;
2. Apply scene setting for creating a safe space.

The trauma of the pandemic has impacted all of us over the past 2 years. For some of us, that has triggered old hurts. Old behaviours may have emerged or escalated. Using Moreno’s role theory we will explore the roots of survivor roles which have led to addictive and/or problematic behaviours. TRANSGENERATIONAL GRIEF

Cristina Schmidt, MA, LPCC, International Center for Psychogenealogy, Private Practice

Trauma generated by significant losses of our ancestors is one of the most important transgenerational psychotherapy topics that can impact the healing work with our clients. In this workshop we will identify if some of the symptoms in our clients’ might be “inherited grief”.

POST PANDEMIC GROWTH & CELEBRATION

Rob Pramann, ABPP (Group Psychology), TEP, Christian Counseling Centers of Utah, Utah Critical Incident Stress Management Team

Recent years were full of trauma including serious health, climactic, racial, political, and international crises. These have not only left us scarred and suffering but also with posttraumatic growth and reason to celebrate. Psychodrama provides a venue to recount meaningful experiences (Nolte, 2008) and a medium for celebration, something we, in modern times, too often neglect (Foster, 1978, Fox, 1986). Come, join, and share the good that has come out of such difficult circumstances.

Learning Objectives.
After attending this workshop, participants will be able to:
1. Demonstrate how psychodrama can be conducted to fully communicate a positive or meaningful experience;

This is the Moment: Timing and Joy in Skillful Liberation

3:00 pm - 4:30 pm
DIVERSITY FORUM:
Jennie Kristel, REAT, APTT, RMT & Michael Watson, PhD
Envisioning a more accessible ASGPP community

What vision does our community have to address colonial issues such as racism, income inequality and all forms of social injustice? What conserves both explicit and implicit serve and restrain these visions?

Historically, the Diversity Forum has been a place for the ASGPP community to look at, take stock of and work on issues of diversity and social justice, within our community.

In this Diversity Forum, co-facilitated by Jennie Kristel and Michael Watson, with members of the Society and Social Justice Committee, we will sociodramatically share the journey, workings, and discoveries of the Social Justice Committee including Courageous Conversations and the Town Hall meetings which many of us attended.

Using a self-reflective model, we, the ASGPP membership will explore together personal and collective conserves which need our attention; name what calls for healing within our community; and identify steppingstones which we as a group can take to co-create spontaneity and fulfill the dreams and visions we hold for our collective future.

BANISHING ENERGY DRAINS ▲■

Carole Oliver, M.Ed, TEP, LPC, ASGPP; Florida Mental Health Counseling Association; Women’s Alliance in the Arts; Palm Beach Counselors Association.

Energy drains are people, places and things that zap our energy while Energy givers are people, places and things that give us energy and joy. Energy drains can be an unfinished project, people who want too much from us, our own critical voices, and perfectionism. It’s your nagging voice that says: “You haven’t finished that yet?, “Be Nice.” Did you make that call yet? Did you do that perfectly? Is your life filled up with more energy drains than energy givers? We will learn how to create a life filled with energy givers so our lives can flow with joy and spontaneity and focusing on being in charge of one’s life.

60  POST - PANDEMIC COURT

Galabina Tarashoeva, MD, Psychodrama Center Orpheus, Psychiatric and Psychotherapeutic practice Orpheus

After a long period of severe pandemic, we go out with the desire to forget it and never return to it. As much as we want this to happen, there are unfinished processes that pull us back and prevent us from enjoying the current, albeit, relative freedom from the virus. We blame ourselves – “I didn’t do the best for relatives and friends I lost”, we blame the state for what caused us the restrictions, we blame the doctors for not saving our sick relatives or for all the suffering during our own illness. We cannot forgive our colleagues who did not respect the restrictions and infected us or our dearest colleagues. Maybe we need a psychodramatic court to bring to the court all those we seek justice for. In court as in court – with prosecutors, lawyers, jurors and of course the accused. According to the needs of the group we will focus on personal or social topics.

Learning Objectives.
After attending this workshop, participants will be able to:
1. Apply Moreno’s (1937) technique for dealing with their own self-accusations;
